CGS Member Awards

The CGS member award program was established to recognize breeders who achieve the highest standards in their breeding programs as evidenced by their results in offical CGS Milk Recording programs, the CGS Type Evaluation program, and in the show ring at CGS sanctioned shows.

The Master Breeder award was established in 1998, and required points to be earned earned from all three of the CGS programs offered (Show, Milk Recording and Type Evaluation). The first two recipents of that award were Mrs. Saundra Howell (On a Clear Day) and Mrs. Susan Frazer (Trilyte).

In 2021, the Silver Master Breeder award was introduced to address the efforts of breeders, who participated in CGS performance programs exclusively (Milk Recording and Type Evaluation), and did not participate in CGS sanctioned shows. Lloyd and Barbara Wicks (Grasshill) were the first recipients of this award.

MASTER BREEDER AWARD

This award is designed to recognize Breeders who have committed themselves to achieving the highest standards in their breeding program. The award is based on an overall goal towards excellence for type and production in Dairy Goats. To achieve this award a breeder must be a current member of CGS and have bred at least six animals, bucks or does, or a combination of both of the same breed, which have been officially designated as receiving any of the following awards (Select Doe (based on championship legs, production achievements and classification scores), Select Sire, or Select Brood Doe). Recipients of this award will be presented a certificate and plaque at the Annual General Meeting and will receive recognition in CGS publications.

SILVER MASTER BREEDER AWARD

This award is designed to recognize Breeders who have committed themselves to achieving the highest standards in their breeding program. The award is based on an overall goal towards excellence for type and production in Dairy Goats. To achieve this award a breeder must be a current member of CGS and have bred at least six animals, bucks or does, or a combination of both of the same breed, which have been officially designated as receiving any of the following awards (Select Doe (based on production achievements and classification scores), Select Sire, or Select Brood Doe).
